Monitoring the Plan

So what happens next ?

Unless formally dissolved Horsham Blueprint Neighbourhood Forum will continue to exist until August 2025

Horsham Blueprint

Making a plan for Horsham

Now the plan is made – what's Blueprints role?

Monitoring the plan

- checking that planning applications comply with the policies detailed on the plan and are consistent with the Objectives of the Plan (all 9 of them).

Proactively encouraging the AIMS

- Support for Housing Cooperatives (AIM 1)
- Locally Listed Heritage Assets and Conservation Areas (AIM 2)
- Aspirational Development Sites (AIM 3)

Revising the plan (eg to take account of HDC Local Development Plan)

Horsham Blueprint

Making a plan for Horsham

How will all this be funded?

Limited funding available to:

Any groups who are updating or modifying a made plan can apply for the funding again in full, ie Blueprint will be eligible for the basic grant of £10,000

however,

if the revision includes the allocation of sites for housing second time round OR **include design codes** then that would entitle Blueprint to an additional grant AND technical support as well.

Horsham Blueprint

Making a plan for Horsham

So what are the options?

Option 1

Do nothing & wind up Blueprint

Potential Advantages:

- None

The potential disadvantages of which are:

- Plan will fall into disuse
- Planning applications unlikely to be checked against the Plan's Objectives
- The three AIMS will not be championed

7 years of potentially wasted effort !

Horsham Blueprint

Making a plan for Horsham

Option 2

Maintain Blueprint, but devolve certain activities (eg reviewing planning applications) to the Neighbourhood Councils

Potential Advantages

- Option for Blueprint to review planning applications meeting certain criteria (eg size, employment type etc)
- Blueprint can focus on delivering the Plans Aims & Objectives and reviewing the Plan
- Efficient use of limited resources (eg Blueprint & Neighbourhood Councils not reviewing all planning applications)
- Help to maintain the partnership between Blueprint and the Neighbourhood Councils.
Possibility of maximising the benefits / influence of the plan

Potential Disadvantages

- Labour / resource intensive

Horsham Blueprint

Making a plan for Horsham

Option 3

Maintain Blueprint and retain all functions

Potential Advantages

- Largely as Option 2

Potential Disadvantages

- Very labour / resource intensive.
- Risk of being disengaged from Neighbourhood Councils (particulary if the Steering Group membership changes)

Horsham Blueprint

Making a plan for Horsham

Option 2

Steering Committee recommends -

Maintain Blueprint, but devolve certain activities (eg reviewing planning applications) to the Neighbourhood Councils

Potential Advantages

- Option for Blueprint to review planning applications meeting certain criteria (eg size, employment type etc)
- Blueprint can focus on delivering the Plans AIMS & Objectives and reviewing the Plan
- Efficient use of limited resources (eg Blueprint & Neighbourhood Councils not reviewing all planning applications)
- Help to maintain the partnership between Blueprint and the Neighbourhood Councils.
Possibility of maximising the benefits / influence of the plan

Potential Disadvantages

- Labour / resource intensive
